Promotions at St.Germain Collins | *Sentry EHS*

WESTBROOK, Maine (January 14, 2016) – St.Germain Collins is pleased to announce the promotion of Scott Collins, Patrick Coughlin, Jessica Szafranski and Donald McFadden.

Scott Collins, P.E. has been promoted to Managing Principal. In this expanded role, Scott will oversee all business operations at St.Germain Collins. Scott has expertise with solid waste facility and petroleum/energy facility design, engineering, licensing, operations compliance and construction administration; environmental assessments and remediation; and design, licensing and construction oversight at aboveground storage tank facilities. Prior to his promotion, Scott served as Vice President and Senior Engineer.

Patrick Coughlin is now Director of *Sentry EHS*. Patrick specializes in comprehensive compliance systems for clients in the energy, solid waste/recycling, commercial and higher education sectors, as well as permitting and design of energy and waste/recycling facilities. Patrick will continue as Principal of the firm, and in his additional role as Director of *Sentry EHS*, he will oversee all activities in the continuing development of this cloud-based compliance database solution.

EXPERIENCE YOU CAN RELY ON
WHEN IT COUNTS

Jessica Szafranski has been promoted to Director of EHS Services, overseeing the environmental, health & safety (EHS) group who provide regulatory compliance services to clients in the energy, waste & recycling, manufacturing, and higher education fields. Jessica has been with St.Germain Collins since 2010 with increasing responsibilities from geologist to regulatory specialist to senior project manager.

Donald McFadden, C.G. was promoted to Director of Environmental Services. He will be overseeing the environmental group which is responsible for environmental site assessments, soil and groundwater sampling, wastewater sampling, stormwater sampling, vapor intrusion assessment and remediation, and underground storage tank removals. Don will also continue to oversee due diligence risk management services for mergers & acquisitions and other commercial lending transactions.

"We are pleased to promote these well-deserved company leaders as St.Germain Collins continues to grow and provide client partners with the quality of work and great customer service that they have come to expect." said Mark St.Germain, Founder and Principal of St.Germain Collins.

ABOUT ST.GERMAIN COLLINS

Founded in 1992, St.Germain Collins is an environmental, health & safety (EHS) compliance, engineering and environmental firm providing senior level management to clients in the areas of site planning and development, energy, petroleum and waste management, site investigation and restoration, and EHS compliance. Recently St.Germain Collins launched its latest version of *Sentry EHS*, an online compliance management tool for businesses in Maine and throughout the United States. More information is available by visiting www.stgermaincollins.com and www.sentryehs.com.
